Products

Recycled LDPE Granules

Sustainable raw material for film and plastic production, packed in big bags for international shipment.

Recycled LDPE Granules

Supporting sustainable packaging

SAMPACKT supports sustainable packaging solutions by offering recycled LDPE granules produced from carefully collected, sorted and washed clean plastic waste.

Recycling & production process

1. **Collection & sorting**
   Selected clean LDPE plastic waste is collected and sorted.
2. **Washing & cleaning**
   Materials undergo a washing process to remove impurities and unwanted residues.
3. **Granulation**
   Clean materials are processed into recycled LDPE granules.
4. **Packaging & export**
   Finished granules are packed in approximately 1,300 kg big bags, suitable for international shipment.

Applications

- Plastic film production
- Garbage & waste bags
- Industrial plastic bags
- Flexible packaging
- LDPE plastic products
- General plastic manufacturing
